

## TORCH/REES/Texas Healthcare Trustees Hosting “Realizing Vision During Challenging Economic Times”

TORCH/REES/Texas Healthcare Trustees (THT) have joined together to host a workshop entitled “Realizing Vision During Challenging Economic Times” on June 18, 2009 at the Marriott Las Colinas Hotel in Irving, Texas.

The workshop focuses on how to develop and execute attainable plans for needed construction projects during our current recession. Experts will be on hand to give presentations and conduct discussions on topics you must know in order for your hospital to improve facility assets while surviving these challenging economic times.

*“Each of the six sessions will spotlight key factors for success in the planning, design, and construction process. From strategic planning using REES’s patented **FACILITY BUSINESS PLAN®** process, to financing capital projects in today’s economic climate, to sharing a “team approach” to design integrating architect, contractor, financier, and accountant, each attendee will come away with useful knowledge that can be directly applied to his or her current organization.”*

Eric J. Kutche, MHA, AIA, CHE, Workshop  
Chairman, REES

REES invites you to be a part of this exciting workshop. To learn more about the workshop or to register, please visit <http://www.torchnet.org/>.
