

REES OPENS HOUSTON OFFICE

Further enhancing our Texas presence, REES is proud to announce the opening of a Houston office.

The office will be led by longtime Houston resident Allan Parr, who currently serves as REES' Chief Operating Officer. Parr's proven experience in operations management, project management, facilities operation, construction, design, and business development will allow REES to provide unparalleled service to clients in the southern Texas region.

"I am pleased to announce the re-establishment of a REES presence in Houston after more than a decade of serving the Houston market remotely," said Parr. "REES has a long history of delivering successful projects in Houston, including Healthcare, Senior Living and Higher Education project types. We look forward to growing and working even more closely with our Houston area partners and clients in 2010."
