

HAPPY WORLD ENVIRONMENT DAY!

Since 1972, millions of people across the globe have joined together in June to celebrate the earth's natural resources and to promote positive environmental action.

Sponsored by the United Nations Environment Programme, the 2010 World Environment Day celebration will feature concerts, film festivals, educational events, and community service events across six continents. This June 5th, we encourage you to participate in the 38th annual World Environment Day! Click [here](#) to locate an event near you.

REES is committed to making our world a "greener" place through the practice of sustainable architecture. To learn more about green building, please click [here](#).
