

REES ATLANTA FEATURED IN ENVIRONMENTAL DESIGN & CONSTRUCTION

REES-Atlanta's office has been featured in *Environmental Design & Construction* magazine!

The 8,400 square foot office space was featured for its use of reclaimed, Forest Stewardship Council (FSC) certified teak wood. The flooring, one of many sustainable elements in the space, is featured in three conference rooms, the breakroom, and the design library.

REES' Atlanta office was completed in 2008 and achieved LEED Silver Certification.
