

REES CLIENT HONORED AS 2010 "BEST PLACE TO WORK"

Congratulations to GMX Resources, Inc. on being named one of Oklahoma's Best Places to Work!

Twenty-eight firms were honored in this year's awards, sponsored by *OKCBiz* magazine. Selections are based upon survey responses completed by employees of participant firms, and rate companies in the categories of leadership and planning, corporate culture and communications, role satisfaction, work environment, and relationship with supervisor.

GMX Resources is a publicly traded oil and natural gas company (NYSE: GMXR) that has recently experienced tremendous growth and increased prestige within their industry. A reflection of GMXR's enhanced corporate image, REES designed the firm's Oklahoma City headquarters to facilitate future growth and provide internal flexibility. The use of natural materials within the office space, such as richly toned woods, iron, and stone, reflects the company's geological roots.

REES is proud to serve clients whose contributions and reputations enhance the communities around them. Congratulations, GMX!
