ANNOUNCEMENT

Faith-Based Sponsors for Retirement Communities Provide the Opportunity to Expand a Church's Mission through ongoing Christian Care

Faith-Based Sponsors for Retirement Communities provide the opportunity to expand a Church's Mission through the provision of ongoing Christian Care. Faith-Based Retirement Communities afford the traditional amenities of senior living villages - recreational and social opportunities, on-site healthcare services and dining - with the additional bonus of living in an environment of spiritual fellowship and support among neighbors who share similar faiths.

Rees Associates, Inc. has over 20 years experience designing Faith-Based Communities. The firm has extensive experience coordinating the needs of owners, sponsors, developers and donors to provide retirement communities of the highest quality.

Meadow Lake Retirement Community, a 600,000 square foot, gated development, is the product of a long-term relationship between REES and Sears Methodist Retirement Systems (SMRS). SMRS who developed, owns and manages the community, has a mission to provide quality aging services in a Christian environment.
