

REES Senior Living Expert Presents “Universal Design for Senior Living” Webinar for Long-Term Living

REES Senior Living leader Beverly Brandon will present “Universal Design for Senior Living” Webinar for Long-Term Living on May 13th at 1 pm EST.

Does your building’s design and interior features assist your seniors in daily living activities? During this session attendees will be asked to evaluate spaces and identify whether those spaces have barriers, using the checklist provided. This same checklist of aging in place design features will assist attendees in assessing their own community.

Register [here](#) for the session.
